Ioh	Number:	
JUU	number.	

Inspection of all ladders should visually determine the following:

- Rung and side rails free of defects. 1.
- 2. Side rails free of sharp edges.
- 3. Joints between rugs and rails tight.
- 4. Rungs free of oil and grease.
- 5. Safety shoes (feet) in good condition.
- Hardware and fittings securely attached and in good operating condition. 6.
- 7. Ladder properly identified.
- Extension ladders must have a safety catch to lock the position of extension. 8.
- Non-conducting ladders used when performing electrical work. 9.

Verify all items of the above ladder inspection checklist are either satisfactory or unsatisfactory by marking S or U in the appropriate columns.

Ladder Id	Size	Foot Pads	Rung/Steps	Risers	Spreader Braces	Comments

If any item is marked unsatisfactory, remove the item from service and destroy.

If it does not pass inspection indicate the Date Destroyed:

□ N/A
