Form Number LLCF-048	Issue Date 03/17/16	Revision Date 01/15/25	Form Number	
	Monthly Ladd	ier inspection	LLCF-048	

Inspection of all ladders should visually determine the following:

- 1. Rung and side rails free of defects.
- 2. Side rails free of sharp edges.
- 3. Joints between rugs and rails tight.
- 4. Rungs free of oil and grease.
- 5. Safety shoes (feet) in good condition.
- 6. Hardware and fittings securely attached and in good operating condition.
- 7. Ladder properly identified.
- 8. Extension ladders must have a safety catch to lock the position of extension.
- 9. Non-conducting ladders used when performing electrical work.

Verify all items of the above ladder inspection checklist are either satisfactory or unsatisfactory by marking S or U in the appropriate columns.

Ladder Id	Size	Foot Pads	Rung/Steps	Risers	Spreader Braces	Comments

If any item is marked unsatisfactory, remove the item from service and destroy.							
If it does not pass inspection indicate the Date Destroyed:		□ N/A					
Name (print):	Date:						
Signature:	<u> </u>
