HEALTH SAFETY ENVIRONMENTAL

Alert #: SA 11-19

Date: 08/09/19

## **BSEE!Safe**

In an effort to keep our employees aware and up to date with things going on in our industry, we wanted to pass some helpful information on to you.

Back in May 2019, The Bureau of Safety and Environmental Enforcement (BSEE) launched BSEE!Safe, a safety initiative to bring critical safety information directly to workers in our industry. The BSEE!Safe program uses text messaging notification technology to send links for its published Safety Alerts and Bulletins, tools used to inform the offshore oil and gas industry of the circumstances surrounding an incident or near miss. The alerts and bulletins also contain recommendations to help prevent the recurrence of such an incident.

Employees can sign up for the free text notification service at <https://bsee.sendwordnow.com>. Notices of Safety Alerts, Bulletins, and other safety announcements will be sent via text message with links to the information. BSEE!Safe notifications supplement the long-standing practice of issuing Safety Alerts and Bulletins sharing lessons learned and recommendations from incidents and near misses with industry representatives.

Employees will maintain their own accounts and may discontinue the service at any time.

If you should have any questions, please feel free to contact the Corporate HSE Department.

***Report all incidents immediately to the Hotline  
1-855-543-5163.***
